[35°54'13" N / 121°46'50" W]

REMARKS:

An area of possible was seen in this Landsat-7 image earlier today off the central California coast. It was located approximately 47 miles south-southeast of Monterey, CA and 14 miles west-southwest of the closest land. The area of possible oil was nearly 3 miles in length although there appeared to be some smaller pieces that had broken off as well.
