REMARKS:

A thin plume of suspected oil is seen in this image coming from a suspected point source in the western Gulf of Mexico. It is located approximately 133 miles south of Galveston, TX and 174 miles east of Corpus Christi, TX. The slick extended about 5.25 miles northwest from the source point and was 0.1 mile or less in width. Skies were mostly cloud free at the time of the image with light winds from the southwest.
