## Legend

-  Possible Oil
-  False-Positives (not oil)
-  Suspected Point Source:  
[ 29°2'7" N / 90°8'20" W ]

4.92 km<sup>2</sup> Area of Possible Oil

## REMARKS:

An area of possible oil is seen approximately 15 miles southwest of Grand Isle, LA. A point source appears to be located near the southern end of the slick. The slick was patchy as it extended approximately 5 miles northward with maximum width of 0.75 mile near the likely source. Winds were light out of the west at the time of the image and skies were mostly clear with only a few small cumulus clouds seen northeast of the slick.
