False-Positives (not oil)

Destroyed Deepwater Horizon Platform:  
[ 28°44'54" N / 88°23'16" W ]

52 km<sup>2</sup>

Area of Possible Oil

## REMARKS:

A possible oil slick extended to the northeast of the destroyed Taylor platform. The general shape and extended distance to the northeast of the platform is consistent with yesterday's analysis and with current surface winds.

The sky conditions were mostly clear at the time of the image and winds were about 5 knots from the south-southwest.
